CONSTRUCTION STORMWATER PERMIT TRANSFER CERTIFICATION

By signing the following certification, the new owner accepts the SWP3 on file, and certifies to erect and maintain erosion control measures as needed for his property. However, unless the new owner is purchasing the entire remaining land area of the original project, the original developer will still be held responsible for erosion and sediment control for the common public infrastructure throughout the build-out stage.

I certify under the penalty of law that I have personally examined and am familiar with the information submitted in the attached document and all supplements; and, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe the submitted information is true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of a fine and/or civil penalty.
