A PROGRESSIVE CITY COMMITTED TO A QUALITY COMMUNITY

2023 | ISSUE 11

Ways to Prevent a Sewer Back-Up:

- Do not put disposable or flushable wipes down your toilet
- Dispose of grease and fats in your trash, not down the drain
- Plant your trees and large shrubs away from sewer lines—roots can cause damage to sewer lines
- The vast majority of the time, the backup is with the private line. If you call the City out first, 405-793-5080, we'll verify if the private line is blocked so you can get it fixed before it becomes a bigger issue.

Keep Fires Burning Safely

Do the chilly temperatures have you dreaming of cozy gatherings around a brightly lit fire? If your ideal winter retreat is sitting in the warm glow of the fireplace, the Moore Fire Department says safety should be your first priority. Follow these helpful tips to keep you and your family safe when you use fireplaces and wood stoves:

- Inspect your fireplace/wood stove before using them each year. Clean the chimney to remove creosote, which can ignite and start a chimney fire.
- Use a tempered glass or metal screen over the fireplace opening to keep sparks inside. Never use papers, trash or liquid fuel. Burn only wood in fireplaces and wood or wood pellets in wood stoves.
- Keep anything that can burn at least 3 feet away from fireplaces and wood stoves. Openings can get hot enough to burn skin, so keep children and pets far away from them. When you're finished with your fire, put it out before you leave home or fall asleep. When you clean up, place the ashes inside a metal can with a lid. Store the can outside, away from the home, until the ashes are completely cold.
